

One account call, watched start to finish. Score what the rep **did**, not what they know. The course can teach these five and can tell you who has practiced them. It cannot tell you whether they hold up in a doorway, which is what this page is for. Five behaviors, one visit, two minutes to fill in afterward.

REP	ACCOUNT	DATE	MANAGER
WHAT TO WATCH FOR			
Qualified before pitching Asked what the list or set is missing before opening the bag. Nothing was poured until they knew what the room needed. O2			DID IT ☐ PARTLY ☐ DID NOT ☐
Proposed two wines, and named what was held back Two, not the whole bag. Said out loud which wine is the visit-two conversation, and why. O3			DID IT ☐ PARTLY ☐ DID NOT ☐
Led with the farming in plain words, before any certification Practice first: dry-farmed, sheep in the rows, native yeast, and what it does to the wine. The marks came later, as proof, or not at all. O4			DID IT ☐ PARTLY ☐ DID NOT ☐
Answered a money question with a number, and did not discount Pour cost or margin worked out loud, in the buyer's units. Held the price and offered a return instead of a reduction. O5			DID IT ☐ PARTLY ☐ DID NOT ☐
Left with a concrete next step that has a date on it A staff pour, a tasting, a callback, booked for a named day. Not "I will check back." O7 · O8			DID IT ☐ PARTLY ☐ DID NOT ☐

What you would have them do differently next call

CERTIFIED IN FIELD

Only a manager can set this state, and only from a live call. Finishing the course, or passing its assessment, does not grant it. A pass says the rep can choose the right move when the options are in front of them; this signature says they made the right moves with a buyer watching.
